One-factor-at-a-time exploratory screen
Points/bands: median and 10th–90th trajectory percentiles
A Observed duration
Months
B Replication compliance
Mean RCR
C Insolvency risk
Fraction of runs
D Realized initial utilization
Fraction
base
initial endowment low
initial endowment high
monthly yield low
monthly yield high
initial dataset count low
initial dataset count high
target replicas low
target replicas high
base repair reward low
base repair reward high
repair alpha low
repair alpha high
repair latency low
repair latency high
exit sensitivity low
exit sensitivity high
cost volatility low
cost volatility high
failure probability low
failure probability high
